

The Sea Voyage by John Fletcher and Philip Massinger

The Sea Voyage

by John Fletcher & Philip Massinger

Albert, a handsome French pirate, and his crew get shipwrecked on a barren, rocky island after a severe storm. They encounter another pair of castaways who reveal a quite unusual secret—yet another strange group of people inhabit the island. Albert soon learns that these people are actually an Amazonian-like tribe of women, and proposes an alliance for the benefit of both parties. Love and hijinks ensue in a battle of the sexes.

Notable for imitating many elements of William Shakespeare's *The Tempest*, the collaborators also consulted nonfictional traveler's accounts to bring their vision to life. Frequently re-envisioned by other playwrights and performed with considerable popularity, it is now considered a fascinating play in that it highlights the Jacobean excitement over colonialism and their attitudes towards it. (Wikipedia and Mary Kay)
